<Reference> Reference Matters Common to Proposals 2 through 8

In order to further strengthen our corporate governance, the Company intends to transition to a Company with an Audit & Supervisory Committee. Since Proposals 2 through 8, which are being submitted as proposals to be resolved for this General Meeting, all relate to this transition, we hereby explain the features of a Company with an Audit & Supervisory Committee, the reason for the transition to a Company with an Audit & Supervisory Committee, and the organizational structure following the transition, as follows.

1. Features of a Company with an Audit & Supervisory Committee

(1) Strengthening the supervisory function of the Board of Directors

Directors who are Audit & Supervisory Committee Members attend Board meetings, hold voting rights, and participate in various decision-making processes regarding business execution. Additionally, the Audit & Supervisory Committee audits the execution of duties by Directors and has the right to present opinions at the General Meeting of Shareholders regarding the appointment, dismissal, and compensation of Directors who are not Audit & Supervisory Committee Members. These factors serve to further strengthen the supervisory function of the Board of Directors.

(2) Speeding up decision-making and business execution

Pursuant to provisions in the Articles of Incorporation, the Board of Directors may, by resolution, delegate all or part of decisions regarding important business execution to Directors. This enables rapid decision-making and business execution without requiring a resolution by the Board of Directors.

2. Purpose of the transition

The Company recognizes corporate governance as a key priority in corporate management and has strived to enhance corporate governance by ensuring that various bodies, including the General Meeting of Shareholders, the Board of Directors, and the Audit & Supervisory Board, and their members fulfill their respective roles in accordance with applicable laws and regulations.

Aiming to strengthen management structure to respond promptly to changes in the external environment and to further improve corporate governance, through transition to a Company with an Audit & Supervisory Committee, we will strengthen the supervisory functions of the Board of Directors and strive for the sustainable growth of the Group and the enhancement of corporate value over the medium to long term.

Proposal 2: Partial Amendment to the Articles of Incorporation

1. Reasons for the amendment

As explained above, in order to transition to a Company with an Audit & Supervisory Committee, the necessary amendments, including the establishment of new provisions regarding Directors who are Audit & Supervisory Committee Members and the Audit & Supervisory Committee, as well as the deletion of provisions regarding Audit & Supervisory Board Member and the Audit & Supervisory Board and related matters, will be made.

Proposal 6: Determination of Amount of Compensation for Directors (Excluding Directors Who Are Audit & Supervisory Committee Members)

Subject to the approval and adoption of Proposal 2 “Partial Amendment to the Articles of Incorporation,” as originally proposed, the Company will transition to a Company with an Audit & Supervisory Committee.

The amount of compensation for Directors of the Company was approved at the 12th Ordinary General Meeting of Shareholders held on June 21, 2018, as “up to 252 million yen per year (of which up to 30 million yen is for Outside Directors).” Subsequently, at the 16th Ordinary General Meeting of Shareholders held on June 23, 2022, in order to revise the amount of compensation for Outside Directors, the amount of compensation for Directors of the Company was approved as “up to 252 million yen per year (of which up to 50 million yen is for Outside Directors),” and this has remained in effect to the present. However, following the transition to a Company with an Audit & Supervisory Committee, we intend to abolish this provision and instead newly determine the amount of compensation for Directors (excluding Directors who are Audit & Supervisory Committee Members) and establish the compensation amount at “up to 252 million yen per year (of which up to 50 million yen is for Outside Directors).”

The details of the decision-making policy regarding the details of individual compensation of Directors are set forth in the Business Report. However, if this proposal is approved and adopted, the Company plans to make necessary revisions to said policy at a meeting of the Board of Directors, while maintaining substantially the same content, based on the transition to a Company with an Audit & Supervisory Committee and the details of this proposal.

We believe this proposal is appropriate because it takes into account the historical levels of compensation for Directors and various factors such as recent economic conditions, has been approved by the Personnel and Compensation Advisory Committee, which is comprised of inside Directors and Independent Outside Directors, and is consistent with the decision-making policy regarding the details of individual compensation of Directors following the revision.

Furthermore, as in the past, the amount of compensation for Directors who are not Audit & Supervisory Committee Members shall not include employee salaries for Directors concurrently serving as employees.

The current number of Directors is 12 (including five Outside Directors). If Proposal 2 “Partial Amendment to the Articles of Incorporation,” and Proposal 3, “Election of Ten (10) Directors (Excluding Directors Who Are Audit & Supervisory Committee Members),” are approved and adopted as proposed, the number of Directors who are not Audit & Supervisory Committee Members will be 10 (including four Outside Directors).

The effectiveness of the resolutions pertaining to this proposal shall arise on the condition that Proposal 2, “Partial Amendment to the Articles of Incorporation,” is approved and adopted as originally proposed.

Proposal 7: Determination of Amount of Compensation for Directors Who Are Audit & Supervisory Committee Members

Subject to the approval and adoption of Proposal 2 “Partial Amendment to the Articles of Incorporation,” as originally proposed, the Company will transition to a Company with an Audit & Supervisory Committee.

Accordingly, we propose to set the amount of compensation for Directors who are Audit & Supervisory Committee Members at up to 57.6 million yen per year.

We believe that this proposal is appropriate because it takes into account the responsibilities of Directors who are Audit & Supervisory Committee Members and various factors such as recent economic conditions.

If Proposal 2 “Partial Amendment to the Articles of Incorporation,” and Proposal 4, “Election of Five (5) Directors Who Are Audit & Supervisory Committee Members,” are approved and adopted as originally proposed, there will be five Directors who are Audit & Supervisory Committee Members (including three Outside Directors).

The effectiveness of the resolutions pertaining to this proposal shall arise on the condition that Proposal 2, “Partial Amendment to the Articles of Incorporation,” is approved and adopted as originally proposed.

Proposal 8: Determination of Compensation for the Grant of Restricted Stock to Directors (Excluding Directors Who Are Audit & Supervisory Committee Members and Outside Directors)

1. Reason for the proposal

Subject to the approval and adoption of Proposal 2 “Partial Amendment to the Articles of Incorporation,” as originally proposed, the Company will transition to a Company with an Audit & Supervisory Committee.

As a part of a review of the compensation system for officers, the introduction of a compensation plan for granting restricted stock to Directors (excluding Outside Directors) (“the Plan”) was approved at the 12th Ordinary General Meeting of Shareholders held on June 21, 2018. The Plan aims to provide incentives to Directors of the Company (excluding Outside Directors) to promote the sustainable growth of the Group and enhance its corporate value over the medium to long term, and to further advance the sharing of value with shareholders.

Under the Plan, Directors (excluding Outside Directors) shall, pursuant to a resolution of the Board of Directors of the Company, contribute all compensation under this system as a capital contribution in kind and receive the issuance or disposal of the Company's common stock in exchange. The total number of the Company's common stock issued or disposed of in this manner shall not exceed 176,000 shares per year. Furthermore, the total amount of compensation paid under the Plan shall not exceed 60 million yen per year (excluding employee salaries for Directors concurrently serving as employees).

This proposal requests your approval to apply the Plan to Directors of the Company (excluding Directors who are Audit & Supervisory Committee Members and Outside Directors; the “Eligible Directors”) following the transition to a Company with an Audit & Supervisory Committee.

We believe this proposal is appropriate because it has been advised by the Personnel and Compensation Advisory Committee,” which is composed of internal Directors and Independent Outside Directors, and is consistent with the decision-making policy regarding the details of individual compensation of Directors following the revision.

Furthermore, this proposal is separate from the compensation limit for which we request your approval in Proposal 6, “Determination of Amount of Compensation for Directors (Excluding Directors Who Are Audit & Supervisory Committee Members).”

Additionally, currently, there are seven Directors subject to the Plan. If Proposal 2, “Partial Amendment to the Articles of Incorporation,” and Proposal 3, “Election of Ten (10) Directors (Excluding Directors Who Are Audit & Supervisory Committee Members),” are approved and adopted as originally proposed, the number of Directors subject to the Plan will be six.

The effectiveness of the resolutions pertaining to this proposal shall arise on the condition that Proposal 2, “Partial Amendment to the Articles of Incorporation,” is approved and adopted as originally proposed.

2. Amount and details of compensation under the Plan

Pursuant to this proposal, the compensation paid to the Eligible Directors for the grant of restricted stock shall constitute a monetary claim (the “Monetary Compensation Claim”), and the total amount thereof shall be set at no more than 60 million yen per year, which is deemed appropriate in light of the aforementioned purpose. Additionally, the specific timing of payments and allotment to each Eligible Director shall be determined by the Board of Directors. However, the above compensation amount shall not include employee salaries for Directors concurrently serving as employees, and no compensation for the grant of restricted stock shall be paid to Directors who are Audit & Supervisory Committee Members and Outside Directors.

Furthermore, pursuant to a resolution of the Board of Directors of the Company, the Eligible Directors shall contribute all Monetary Compensation Claims paid under this proposal as capital contributions in kind to the Company and receive the issuance or disposal of the Company's common stock in exchange. The total number of the Company's common stock issued or disposed of in this manner shall not exceed 176,000 shares per year (provided, however, that if, on or after the date this proposal is approved and adopted, a stock split of the Company's common stock (including the allotment of the Company's common stock without consideration) or a consolidation of the Company's common stock is carried out, or if any other circumstances arise that require adjustment of the total number of the Company's common stock to be issued or disposed of as restricted shares, such total number shall be adjusted within a reasonable range).

The payment amount per share shall be determined by the Board of Directors within a range that does not result in a price particularly favorable to the Eligible Directors who are to be allotted the Company's common stock, taking into account factors such as the closing price of the Company's common stock on the Tokyo Stock Exchange on the business day preceding the date of each resolution by the Board of Directors (or, if no trades were executed on that day, the closing price on the most recent trading day prior to that date). Furthermore, upon the issuance or disposition of the Company's common stock pursuant to this resolution, the

Company and the Eligible Director shall enter into a restricted stock allotment agreement (the "Allotment Agreement") containing the following provisions.

(1) Transfer restriction period

The Eligible Director shall not transfer to any third party, use as collateral, or otherwise dispose of the Company's common stock allotted pursuant to the Allotment Agreement (the "Allotted Shares") (the "Transfer Restriction") during the period determined in advance by the Company's Board of Directors, which shall be between 10 and 30 years from the date of allotment under the Allotment Agreement (the "Transfer Restriction Period").

(2) Handling upon resignation or retirement

If an Eligible Director resigns or retires from any position as a Director, Audit & Supervisory Board Member, employee, or any other equivalent position at the Company or any of its subsidiaries prior to the expiration of the Transfer Restriction Period, the Company shall automatically acquire the Allotted Shares without compensation, unless such resignation or retirement is due to the expiration of the term of office, death, or any other reason deemed valid by the Company's Board of Directors.

(3) Lifting of the Transfer Restriction

The Company shall lift the Transfer Restriction on all of the Allotted Shares upon the expiration of the Transfer Restriction Period, provided that the Eligible Director has continuously held the position specified in (2) above during the Transfer Restriction Period. However, if the Eligible Director resigns or retires from the position specified in (2) above prior to the expiration of the Transfer Restriction Period due to the expiration of the term of office specified in (2) above, death, or other reasons deemed valid by the Company's Board of Directors, the number of Allotted Shares for which the Transfer Restriction is to be lifted and the timing of such lifting shall be reasonably adjusted as necessary. In addition, immediately after the lifting of the Transfer Restriction in accordance with the above provisions, the Company shall automatically acquire without compensation all of the Allotted Shares for which the Transfer Restriction has not yet been lifted.

(4) Handling at organizational restructuring

Notwithstanding the provisions of (1) above, if a merger agreement in which the Company becomes the absorbed company, a stock exchange agreement or stock transfer plan in which the Company becomes a wholly-owned subsidiary, or any other matter related to its organizational restructuring is approved at the General Meeting of Shareholders of the Company (or at the Board of Directors of the Company, if such organizational restructuring does not require an approval of the General Meeting of Shareholders of the Company) during the Transfer Restriction Period, the Company shall, by resolution of its Board of Directors, lift the Transfer Restriction on a reasonably determined number of the Allotted Shares prior to the effective date of such organizational restructuring. Additionally, immediately after the lifting of the Transfer Restriction in accordance with the above provisions, the Company shall automatically acquire without consideration all of the Allotted Shares for which the Transfer Restriction has not yet been lifted.

(5) Other matters

Any other matters concerning the Allotment Agreement shall be determined by the Company's Board of Directors.

Business Report

(April 1, 2025 - March 31, 2026)

1. Current state of the corporate group

(1) Business progress and results

The Japanese economy during the fiscal year ended March 31, 2026 (hereinafter, “the fiscal year under review”) continued to recover moderately due to improvements in the employment and wage environments and growing inbound tourism demand. However, the outlook remained clouded due to factors such as stalled consumer confidence amid inflation and interest rates, combined with geopolitical risks, including the situation in the Middle East and deteriorating Japan-China relations.

Under such a situation, the Group strived to capture the World Expo related demand in the Transportation and Leisure Services segments, while in the Distribution segment, it worked to expand new truck sales. Additionally, we engaged in expanding our earnings base in the Real Estate segment. In addition to opening the Yokkaichi Sanko Building in August 2025 as our new flagship building in Mie Prefecture, we began development of the Yokkaichi Sanko Building ANNEX on the adjacent site.

As a result, for the fiscal year under review, the Group posted operating revenue of 110,260 million yen, up 6.2% year on year. Operating profit came to 9,756 million yen, or up 15.9%, ordinary profit was 9,674 million yen, or up 13.6%, and profit attributable to owners of parent came to 6,250 million yen, up 3.2%.

Results by segment are as follows:

Transportation segment

In the transit bus division, operating revenue increased, due to the revision of fares in December 2024, as well as strength in transportation in tourist spots in Ise city, etc. In the charter bus division, operating revenue increased due partly to higher unit rates and utilization rates resulting from transportation services for events such as the World Expo. In the taxi division, operating revenue increased due partly to headway in increasing drivers compared to the previous fiscal year.

As a result, operating revenue in the Transportation segment increased by 9.5% year on year to 26,542 million yen, while operating profit increased by 139.6% to 1,240 million yen.

Real Estate segment

In the condominium and housing sale division, operating revenue increased due mainly to the increase in the unit sales price of housing. In the leasing division, operating revenue increased due to improved occupancy rates at properties that opened in the previous fiscal year, as well as the contribution to earnings from the Yokkaichi Sanko Building which opened in August 2025. In the construction division, operating revenue increased due to higher unit prices for custom-built houses and renovation works. In the environmental energy division, operating revenue increased due to more favorable weather conditions compared to the previous fiscal year, which led to higher power generation volumes. In the real estate management division, operating revenue increased, thanks mainly to an increase in new properties managed.

As a result, operating revenue in the Real Estate segment increased by 6.5% year on year to 38,795 million yen and operating profit increased by 9.0% to 6,678 million yen.

Distribution segment

In the petroleum products sales division, operating revenue decreased, due mainly to lower sales prices and sales volumes for petroleum products. In the household goods sales division, operating revenue increased due to the increase in customer traffic as well as the increase in the unit sales price. In the

automobile sales division, operating revenue increased due to the increase in the number of new trucks sold.

As a result, operating revenue in the Distribution segment increased by 3.3% year on year to 36,244 million yen and operating profit increased 29.0% to 777 million yen.

Leisure Services segment

In the business hotel division, operating revenue increased due to higher unit sales prices and occupancy rates, thanks to expanding demand of events such as the World Expo and inbound tourism. In the resort hotel division, operating revenue increased due to the increase in the total consumption amount per stayed guest, driven by efforts to improve customer satisfaction through guest room renovations. In the drive-in division, operating revenue increased due to higher numbers of buses carrying tour and group customers stopping by, which led to the increased use of shops and other facilities. In the travel division, operating revenue increased due to the growth in participants on tours, including those to the World Expo.

As a result, operating revenue in the Leisure Services segment increased by 9.4% year on year to 16,711 million yen, and operating profit decreased 3.6% to 1,101 million yen, primarily due to facility repairs.

b. Performance-linked compensation

Monetary payment is made on a monthly basis. The ratio of performance-linked compensation to basic compensation (total of fixed compensation and performance-linked compensation) is set for each position within the range of 10% to 30%, and the amount is calculated by multiplying the rate of year-on-year change, using the consolidated operating profit and profit attributable to owners of parent as indicators to ensure the sharing of value with shareholders.

c. Restricted stock compensation

Monetary compensation claims for granting restricted stock are provided every year around the same time (within one month after the conclusion of the Ordinary General Meeting of Shareholders for the year). The ratio of restricted stock compensation to total compensation is set for each position roughly within the range of 15% to 20%, and the amount is determined by taking into consideration each Director's position, the number of years in the current position, and other factors.

Restricted stock is granted within one month after the provision of the relevant monetary compensation claim.

The Chairman and Representative Director and the President and Representative Director upon discussions between the two (or the President and Representative Director, if the position of Chairman and Representative Director is vacant) make decisions on individual compensation of Directors, as the relevant decision-making is delegated to them pursuant to a resolution of the Board of Directors. The Chairman and Representative Director and the President and Representative Director (or the President and Representative Director in the abovementioned case) are given the authority to determine the amounts of basic compensation (total of fixed compensation and performance-linked compensation) and monetary compensation claims for restricted stock compensation.

To ensure the abovementioned authority is appropriately exercised, a draft proposal on individual compensation of Directors is provided to the Personnel and Compensation Advisory Committee, which is comprised of inside Directors and Independent Outside Directors, for consultation. The Chairman and Representative Director and the President and Representative Director (or the President and Representative Director, if the position of Chairman and Representative Director is vacant), who have been delegated the task by the Board of Directors which receives a report from the Personnel and Compensation Advisory Committee, makes decisions as described above based on this report.

- Reasons why the Board of Directors has determined the details of individual compensation are consistent with the decision-making policy

The Board of Directors has determined the details of individual compensation of Directors are consistent with the abovementioned decision-making policy, because they were determined in accordance with the procedures established under the abovementioned decision-making policy and reported to and confirmed by the Personnel and Compensation Advisory Committee.

2) Resolutions of the General Meeting of Shareholders on compensation of Directors and Audit & Supervisory Board Members

The amount of basic compensation for Directors is up to 252 million yen per year, of which up to 50 million yen is for Outside Directors (resolution at the 16th Ordinary General Meeting of Shareholders held on June 23, 2022). The number of Directors at the conclusion of that Ordinary General Meeting of Shareholders was 15, including six Outside Directors.

In addition, the amount of compensation for granting restricted stock to Directors who are not Outside Directors is up to 60 million yen per year (resolution at the 12th Ordinary General Meeting of Shareholders held on June 21, 2018). (Each annual amount does not include employee salaries for Directors concurrently serving as employees.) The number of Directors at the conclusion of that Ordinary General Meeting of Shareholders, excluding Outside Directors, was 14.

Furthermore, the amount of basic compensation for Audit & Supervisory Board Members is up to 57.6 million yen per year (resolution at the 12th Ordinary General Meeting of Shareholders held on June 21, 2018). In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position and results of operations of the corporate group, which consists of the Company and its consolidated subsidiaries, for the period covered by the consolidated financial statements in conformity with accounting principles generally accepted in Japan.

Basis for the Opinion

We conducted our audit in accordance with auditing standards generally accepted in Japan. Our responsibility under the auditing standards is stated in "Auditor's Responsibility for the Audit of the Consolidated Financial Statements." We are independent of the Company and its consolidated subsidiaries in accordance with the provisions related to professional ethics in Japan (including the provisions applicable to the audit of financial statements of public interest entities), and are fulfilling other ethical responsibilities as an auditor. We believe that we have obtained sufficient and appropriate audit evidence to provide a basis for our audit opinion.

Other Information

The other information comprises business report and the supplemental schedule. Management is responsible for the preparation and disclosure of the other information. In addition, Audit & Supervisory Board Members and the Audit & Supervisory Board are responsible for overseeing the Directors' execution of duties relating to the design and operating effectiveness of the controls over the Group's reporting process of the other information.

Our audit opinion on the consolidated financial statements does not cover the other information, and we do not provide an opinion on the other information.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Responsibilities of Management, Audit & Supervisory Board Members and the Audit & Supervisory Board for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of consolidated financial statements in accordance with accounting principles generally accepted in Japan, and for designing and operating such internal control as management determines is necessary to enable the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing consolidated financial statements, management is responsible for assessing whether it is appropriate to prepare the consolidated financial statements in accordance with the premise of a going concern, and for disclosing matters relating to going concern when it is required to do so in accordance with accounting principles generally accepted in Japan.

Audit & Supervisory Board Members and the Audit & Supervisory Board are responsible for monitoring the execution of Directors' duties related to designing and operating the financial reporting process.

Auditor's Responsibility for the Audit of the Consolidated Financial Statements

Our responsibility is to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to express an opinion on the consolidated financial statements from an independent standpoint in an audit report, based on our audit. Misstatements can occur as a result of fraud or error, and are deemed material if they can be reasonably expected to, either individually or collectively, influence the decisions of users taken on the basis of the consolidated financial statements.

We make professional judgment in the audit process in accordance with auditing standards generally accepted in Japan, and perform the following while maintaining professional skepticism.

- Identify and assess the risks of material misstatement, whether due to fraud or error. Design and implement audit procedures to address the risks of material misstatement. The audit procedures shall be selected and applied as determined by the auditor. In addition, sufficient and appropriate audit evidence shall be obtained to provide a basis for the audit opinion.
- In making those risk assessments, the auditor considers internal control relevant to the entity's audit in order to design audit procedures that are appropriate in the circumstances, although the purpose of the audit of the consolidated financial statements is not to express an opinion on the effectiveness of the entity's internal control.
- Assess the appropriateness of accounting policies adopted by management and the method of their application, as well as the reasonableness of accounting estimates made by management and the adequacy of related notes.
- Determine whether it is appropriate for management to prepare the consolidated financial statements on the premise of a going concern and, based on the audit evidence obtained, determine whether there is a significant uncertainty in regard to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If there is a significant uncertainty concerning the premise of a going concern, the auditor is required to call attention to the notes to the consolidated financial statements in the audit report, or if the notes to the consolidated financial statements pertaining to the significant uncertainty are inappropriate, issue a modified opinion on the consolidated financial statements. While the conclusions of the auditor are based on the audit evidence obtained up to the date of the audit report, depending on future events or conditions, an entity may be unable to continue as a going concern.
- Besides assessing whether the presentation of and notes to the consolidated financial statements are in accordance with accounting principles generally accepted in Japan, assess the presentation, structure, and content of the consolidated financial statements including related notes, and whether the consolidated financial statements fairly present the transactions and accounting events on which they are based.
- Plan and perform the audit of the consolidated financial statements in order to obtain sufficient and appropriate audit evidence regarding the financial information of the Company and its consolidated subsidiaries, which forms the basis for the auditor's opinion on the consolidated financial statements. The auditor is responsible for instructing, supervising, and reviewing the audit of the consolidated financial statements, and is solely responsible for the audit opinion.

The auditor reports to Audit & Supervisory Board Members and the Audit & Supervisory Board regarding the scope and timing of implementation of the planned audit, material audit findings including material weaknesses in internal control identified in the course of the audit, and other matters required under the auditing standards.

The auditor reports to Audit & Supervisory Board Members and the Audit & Supervisory Board regarding the observance of provisions related to professional ethics in Japan as well as matters that are reasonably considered to have an impact on the auditor's independence, any measures that are in place to eliminate obstacles, and any safeguards that are applied to reduce obstacles to an acceptable level.

Our responsibility is to obtain reasonable assurance about whether the financial statements and the accompanying supplementary schedules as a whole are free from material misstatement, whether due to fraud or error, and to express an opinion on the financial statements and the accompanying supplementary schedules from an independent standpoint in an audit report, based on our audit. Misstatements can occur as a result of fraud or error, and are deemed material if they can be reasonably expected to, either individually or collectively, influence the decisions of users taken on the basis of the financial statements and the accompanying supplementary schedules.

We make professional judgment in the audit process in accordance with auditing standards generally accepted in Japan, and perform the following while maintaining professional skepticism.

- Identify and assess the risks of material misstatement, whether due to fraud or error. Design and implement audit procedures to address the risks of material misstatement. The audit procedures shall be selected and applied as determined by the auditor. In addition, sufficient and appropriate audit evidence shall be obtained to provide a basis for the audit opinion.
- In making those risk assessments, the auditor considers internal control relevant to the entity's audit in order to design audit procedures that are appropriate in the circumstances, although the purpose of the audit of the financial statements and the accompanying supplementary schedules is not to express an opinion on the effectiveness of the entity's internal control.
- Assess the appropriateness of accounting policies adopted by management and the method of their application, as well as the reasonableness of accounting estimates made by management and the adequacy of related notes.
- Determine whether it is appropriate for management to prepare the financial statements and the accompanying supplementary schedules on the premise of a going concern and, based on the audit evidence obtained, determine whether there is a significant uncertainty in regard to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If there is a significant uncertainty concerning the premise of a going concern, the auditor is required to call attention to the notes to the financial statements and the accompanying supplementary schedules in the audit report, or if the notes to the financial statements and the accompanying supplementary schedules pertaining to the significant uncertainty are inappropriate, issue a modified opinion on the financial statements and the accompanying supplementary schedules. While the conclusions of the auditor are based on the audit evidence obtained up to the date of the audit report, depending on future events or conditions, an entity may be unable to continue as a going concern.
- Besides assessing whether the presentation of and notes to the financial statements and the accompanying supplementary schedules are in accordance with accounting principles generally accepted in Japan, assess the presentation, structure, and content of the financial statements and the accompanying supplementary schedules including related notes, and whether the financial statements and the accompanying supplementary schedules fairly present the transactions and accounting events on which they are based.
